Yoto Players

Borrow a Yoto Player from the Port Moody Public Library! Yoto Players are small, screen-free audio players designed for kids. Yoto Players can play stories, music, and learning content.

How do Yoto Players work?

Yoto Players can play audiobooks using small physical cards (Yoto Cards) that insert directly into the Yoto Player. Yoto Cards are available to borrow through the library. The player can also be used as a Bluetooth speaker, has its own radio channels, and more!

How can I borrow a Yoto Player?

Request a Yoto Player kit from the Accounts Desk, or place a hold if none are available:

Borrow a Yoto Player

Each Yoto Player kit comes with a Yoto Player, 3 Yoto cards, and a charging cable.

Borrowing guidelines:

- Loan period: 21 days
- Renewals are permitted if there are no holds on the item.

Where can I return the Yoto Player kit?

Please return the Yoto Player kit to the Port Moody Public Library only, directly to the Accounts Desk.

Do not return the Yoto Player kit in the book drop.

Yoto Player setup instructions

Yoto Players must be configured with the Yoto app before use.

1. Download the Yoto app

- Install the Yoto app on your Apple or Android device.
- Create a personal account.

2. Turn on and charge the Yoto player

- Plug in the UBC-C cable and plug the charger into a power supply.
- Press and hold the power button (on the right) for 3 seconds until the player lights up.

3. Set up the player in the Yoto app.

- Tap Set up my player.
- Hold both orange buttons on the player for 5 seconds. You will see a 6-letter code.
- Enter the code into the app and tap Continue.

4. Connect the player to Wi-Fi

- Tap **Join player's hotspot**.
- Select your Wi-Fi network, enter the password, then tap Done.
- The player will show a green Wi-Fi symbol once connected.

5. Finish Setup

- Let the player finish updating.
- Tap Pair My Phone in the app.
- The player will refresh and show the clock.
